EXECUTIVE SUMMARY

The consultant who has actually run the operations. 25 years turning complexity into measurable outcomes — across government IT, manufacturing, and education, in three countries and three languages.

I help organizations design smarter processes, build digital capability, and lead change that sticks.

Based in Bavaria. Available for consulting and leadership mandates across Europe.

PROFESSIONAL EXPERIENCE

Teleperformance Portugal – *Web Product Implementation Specialist (Google)*

July 2022 – January 2023 | Lisbon, Portugal

- Supported EMEA clients in implementing and optimising Google Analytics, Google Ads, and Google Tag Manager — responsible for a dedicated service stream for high-profile and critical client programmes.
- Exceeded quality score benchmarks consistently while mentoring new hires and redesigning the internal technical support site to improve team efficiency.

AZURIT Seniorenzentrum – *Pflegehilfskraft (Nursing Assistant)*

February 2023 – Present | Germany

- Temporary role taken during international relocation to Germany, focused on direct people support and reinforcing empathy, calm decision-making, and cross-cultural responsibility.
- In parallel, completed four Google Career Certificates in AI, Data Analytics, Business Intelligence, and UX Design — building German language fluency and integrating into the DACH professional ecosystem.

Uriarte Talavera (Premium Ceramics) – *Manufacturing & Sales Manager*

April 2012 – June 2019 | Puebla, Mexico

- Led end-to-end operations for a 200-year-old premium ceramics manufacturer — managing 70 people across all production lines, kiln scheduling, quality control, and sales.
- Built the Quality Assurance department, introduced 5S methodology, and designed the internal Quality Guide for Talavera pieces — improving NPS by 15% and reducing lead times by 20%. Implemented real-time KPI dashboards to track efficiency, deviations, and delivery priorities across the full production chain.
- Grew annual revenue by 30% over four years and expanded the client portfolio by 20% through new commercial relationships in Mexico and the USA.

Universidad Popular Autónoma del Estado de Puebla (UPAEP) – *Professor in Digital Teaching Tools (parallel appointment)* | August 2008 – May 2022 | Puebla, México

- Designed and delivered digital capability programmes for 1,000+ students over 14 years. 90%+ course completion rates, demonstrating coaching, team guidance, and process adoption skills.

ISSSTE (Institute for Social Security & Services for Mexican State Workers) – *IT Operations Manager*

July 1995 – December 2011 | Puebla, Mexico

- Led IT operations across 38 state healthcare facilities — managing systems, networks, telecommunications, and surveillance infrastructure spanning the entire state delegation.
- Directed the rollout of the Electronic Medical Record system (ISSSTEMED), connecting all medical and administrative units to the Central Office in Mexico City.
- Oversaw structured cabling installation and mapping of 370 voice and data nodes during headquarters relocation.
- Trained 120 government employees as distributed IT supporters across state clinics and offices — reducing response times by 50% through staff development and process optimisation.

EDUCATION

- Industrial Design Degree - UNAM, Mexico (1989 - 1994)
- Strategic Marketing Diploma - UIA, Mexico (1998)
- Computer Systems Management Diploma - BUAP, Mexico (2004)
- Cross-Cultural Management Diploma - Ministry of Culture, Mexico (2017 - 2018)

Certifications

- Data Analytics | UX Design | Artificial Intelligence | Business Intelligence - **Google Career Certificates** (2023 - 2025)
