EXECUTIVE SUMMARY

Digital Transformation Consultant with 25 years of hands-on experience designing and delivering technology-driven change across government healthcare, manufacturing, and higher education — in three countries and three languages. Proven track record implementing enterprise IT systems, optimizing complex operations, and building lasting digital capability inside organizations.

I bring an uncommon combination: the operational credibility of someone who has managed 38 healthcare facilities, led enterprise-scale ERP implementations, and built KPI frameworks from scratch — paired with current certifications in AI, Business Intelligence, Data Analytics, and UX Design. I help organizations close the gap between what their technology can do and what their people actually use. Based in Bavaria. Available for consulting mandates across the DACH region and Europe.

PROFESSIONAL EXPERIENCE

Independent Development & DACH Market Entry

June 2019 – Present | Mexico / Germany

- Completed four Google Career Certificates in AI Essentials, Data Analytics, Business Intelligence, and UX Design while relocating internationally to Germany and building DACH market presence.
- Expanded digital teaching responsibilities at UPAEP (2019–2022) before transitioning to Europe.
- Gained direct cross-cultural institutional experience in a German work environment and established a professional network in the DACH region.

Teleperformance Portugal – Digital Implementation Specialist (Google EMEA)

July 2022 – January 2023 | Lisbon, Portugal

- Advised EMEA clients on the implementation and optimization of Google Analytics, Google Ads, and Google Tag Manager — translating technical capabilities into measurable business outcomes.
- Managed a dedicated service tier for high-priority client programs.
- Onboarded new consultants and redesigned the internal knowledge base, reducing resolution time and improving team efficiency.

Uriarte Talavera (Premium Ceramics) – Head of Operations & Digital Performance

April 2012 – June 2019 | Puebla, Mexico

- Led end-to-end digital and operational transformation of a 200-year-old manufacturing business. Introduced real-time KPI dashboards, implemented 5S methodology, and built the Quality Assurance function from the ground up — reducing lead times by 20% and improving NPS by 15%.

- Designed and deployed data-driven performance management frameworks across production, logistics, and sales.
- Grew revenue by 30% over four years through process discipline and commercial development in Mexico and the USA.

Universidad Popular Autónoma del Estado de Puebla (UPAEP) – *Lecturer in Digital Transformation & Tools (parallel appointment) | August 2008 – May 2022 | Puebla, México*

- Designed and delivered digital competency programs for over 1,000 students across 14 years.
- Expanded to a full teaching load from 2019–2022, developing a curriculum focused on digital tools, process adoption, and technology integration.
- Maintained a course completion rate above 90% — demonstrating structured instructional design and change adoption methodology directly applicable to consulting engagements.

ISSSTE (Institute for Social Security & Services for Mexican State Workers) – *IT Operations Manager*

July 1995 – December 2011 | Puebla, Mexico

- Directed IT transformation across 38 state healthcare facilities — managing networks, systems, telecommunications, and surveillance infrastructure at delegation level.
- Led the end-to-end rollout of the ISSSTEMED Electronic Medical Record system, connecting all medical and administrative units to the national Central Office.
- Oversaw structured cabling and mapping of 370 voice and data nodes.
- Trained 120 government employees as distributed IT supporters — cutting response times by 50% through capability building and process redesign.

EDUCATION & CERTIFICATIONS

- Google Career Certificates — AI Essentials · Data Analytics · Business Intelligence · UX Design (Google / Coursera, 2023–2025)
- Bachelor's in Industrial Design — UNAM, Mexico (1994)
- Diploma in Strategic Marketing — UIA, Mexico (1998)
- Diploma in Computer Systems Management — BUAP, Mexico (2004)
- Diploma in Intercultural Management — Ministry of Culture, Mexico (2018)
